National Front News

**FIGHT BACK FOR BRITAIN!****20p****ISSUE 79**

RACIAL violence is becoming more and more common and attacks more and more frequent throughout the British Isles. From Glasgow to London and Cardiff to Peterborough, White, Black and Asian Youth are fighting each other in ever more nasty, ferocious and frequent battles.

They are fighting because multi-racialism has been forced upon them, and their own peoples, cultures heritage and traditions are being threatened. Multi-racial societies have never worked. They have always destroyed themselves and the races involved.

This is the situation which we now face, not just in the British Isles or Europe, but throughout the entire world. We face a choice of living in a peaceful mono-racial society or being destroyed in an evil multi-racial nightmare.

SACRIFICE

The National Front is not based upon hatred of any sort. Our movement is based upon Love. Love for our own peoples, cultures, traditions and nations, and respect for all others. Equally our existence is based upon Sacrifice. We live solely to serve the nations of the British Isles.

But the National Front is being used as a scapegoat for the cynical and corrupt Politicians

STOP THE

RACE WAR!

and the System which has forced multi-racialism upon us. As the multi-racial nightmare grows it is the NF activists who are blamed, imprisoned and beaten for the State's sins.

In Oldham, the multi-racial boiling pot has boiled over. Race War has erupted onto the streets. Whites have been horrifically attacked and coloured immigrants have been petrol bombed out of the mainly White estates. Serious racial conflict is now a regular daily occurrence.

But the Politicians and the Media are ignoring the facts, hoping that they will go away, and hoping that the violence won't spread throughout the country.

SCAPEGOAT

Whilst Whites and Asians are battling it out in Oldham, the NF is trying to sort out the situation politically. But this does not stop the State from looking for a scapegoat.

On June 7th four leading Officials of the Oldham NF had their front doors

broken down with sledgehammers, their homes ransacked, and themselves handcuffed in bed and dragged down to the nearest police station at 4 o'clock in the morning. These men were then questioned non-stop for seven hours and then locked up for another 24 hours before being released without charge.

These men had done nothing wrong except that they were

leading local figures in the National Front.

Whilst they were imprisoned the State hoped that the racial conflict would die down, but instead it accelerated and the whole situation deteriorated dramatically.

TRUTH

The State was then forced to recognize the truth. Racial violence and the coming Race War is

not the fault of the NF or the Black Pride groups. It is the fault of the System that brought multi-racialism, and the State that upholds it and forces it down peoples throats.

There is only one White movement that can save us from this nightmare. That one movement is the NATIONAL FRONT.

There is only one solution to the racial problem.

National Front News Issue 79

FIGHT THE Repression

THE NATIONAL FRONT is presently riding the worst wave of State Repression that has been directed at any British Organisation since the measures against the Communists and the Fascists during the 2nd World War.

This should come as no surprise to cadres and supporters of the movement who wish to implement a National Revolution on the ruins of a corrupt, oppressive and dying society. We offer a genuine alternative to our peoples and certain events are taking place which offer us the opportunity to make organisational gains.

The State is scared: Scared of the situation in Ulster; and scared of the situation on the mainland, particularly in Oldham, where racial tensions have exploded and a serious race war has started.

Above all else the State is scared of the NF, the potential these situations offer us. This is why the State is now clamping down on our movement in an attempt to either neutralize or destroy us.

At the moment it is not an open clamp-down, as they still hope that they can contain the National Revolution without showing the face of State Repression.

They are presently engaged in a massive campaign to bankrupt us out of existence, demoralize our members and supporters and render us virtually unable to operate.

The postal system is now nearly closed to us with hardly any post arriving or leaving. Needless to say this includes all important communications, finance and subscriptions etc.

For instance SEVEN letters informing us of the situation in Oldham were sent over a two week period. NOT ONE ARRIVED.

To combat this stage of repression, well laid out contingency plans are being put into operation. We are going to create our own internal postal system. This had been intended as a matter of course but now the situation demands that we act immediately.

From the next issue, National Front News will be appearing on a fortnightly basis. All subscriptions, donations, memberships, letters etc MUST as far as possible be handed to your local NF Organiser or NF News sellers who will pass them on to us through OUR internal postal system.

If you do have to send anything through the post it is vitally important that you send it RECORDED DELIVERY.

DEAR EDITOR

Dear Comrades,

I write to you to express my appreciation and heartfelt thanks for your kind supportive letters. I am anxious to let you know such letters are very welcome and make life here that bit more tolerable. Even if we have never met personally there is an invisible yet strong bond that unites all Patriots.

Prior to this incarceration I was treasurer of the Belfast Branch and with fellow members have in the past attended many rallies, AGM's, etc. in London and was always made welcome.

Because of my current imprisonment my teaching career is possibly finished, mortgage difficulties have arisen and of course home life has been interrupted. I mention all this to emphasize that despite all, my commitment to our cause is more determined than ever. **Never can my spirit be broken, I realize that more than ever.**

The struggle has hardly begun and will continue even long after our heinous and corrupt state is threshing about in its death throes. Progress for our Party is rapid here in Ulster. Progress too on the mainland is being made so all in the future looks bright.

As you are probably already aware I am held here on remand, the trial date not yet set. It looks likely to be in September or October when I hope I shall be released.

Yours sincerely,

Andrew McLorie

Dear Sir,

I recently bought one of your papers on a Parade in Carrickfergus and would like to thank you for your steadfast support for Ulster. The English are generally mistrusted by Ulsterfolk because of their seeming indifference to the cause and their lack of willingness to get involved, but it is very reassuring to know that there is one organisation that not only fights for the cause but also looks to the future and proposes radical solutions.

I particularly like your proposal for the political independence and your complete rejection of the fur coat brigade. Equally I admire and support your sincere beliefs in social justice and determination in fighting for social issues as well as national ones.

May I take this opportunity to remind our comrades on the mainland not to purchase Eire goods. You will be pleased to hear that the boycott is having some effect in Ulster.

Judging by the amount of papers you were selling the other night my support for you is a small drop in the ocean,

but I wish you well for the future.

Yours,

Miss L Stuart

Carrickfergus

Dear NF News,

I want to tell you about what is happening in Keighly. There have been a number of incidents in Keighly concerning the Asian community and press reports like "White Youths Attack Asians", and "National Front lead Lawicholme Riot".

The Lawicholme incident was when about 30 youths got involved in a fair fight with about 30 Asians. But the press went wild as usual, and blamed the NF.

There have also been reports of Asians attacking kids coming and going to school. But this doesn't get the same sort of reporting.

Anyway one night about 10 youths were going to the local youth club when they were attacked by Asians carrying bars and sticks. After they had defended themselves from the attack they went on to the youth club.

The coppers were waiting and all my mates were nicked.

But on the Saturday when they were in Court for bail, a load of Asians were there. They were writing down all my mates names and addresses as they were being read out. The Asians also had bars in Court and whispered to my mates that, "Its not over yet".

When they were seen with bars in the Court they dropped them and got away.

Since then there has been a lot of tension and a while ago 10 whites were attacked by a group called "Section 5".

A lot of stickers have been going around like, "F**k Off Racist Scum, We're After You" and "Racists Beware WAR is Watching You."

I wondered if you would print this and tell the Whites to stick together. Anyway keep up the good work.

Name and Address supplied.

Keighly

Dear National Front News,

The Phouka is a spirit which appears in the form of a black horse. It haunts ancient places in Ireland. The Phouka approaches a lone person at night, and lets them - if foolish enough - mount it. It then takes them off on a madcap ride. The rider is given one chance to get off - or be forced to ride it forever.

There is an element of truth in all myths or legends. Let's look at this one - and say that the Phouka represents the most evil forces in the world today: Capitalism and Communism.

Communism plagues the 'Third World' with Red revolution, dictatorship and corruption. There is a threat from the USSR, with their SS20's pointing at the Yank bases in Britain. There is also a new threat from the extreme Reds who have infiltrated the Labour Party. They now hold local councils and major cities to ransom.

Capitalism has the destruction of British youth in its hands. Big Business has moved jobs out of Britain to the sweat shops of Asia. It has left most of my friends and relatives on the dole. All they do is hang around on street corners all day, or get up at four in the afternoon. The Royal Family have got people following them like sheep. Whilst old people freeze to death, the tax payers are content to pay out for Princess Di's dresses.

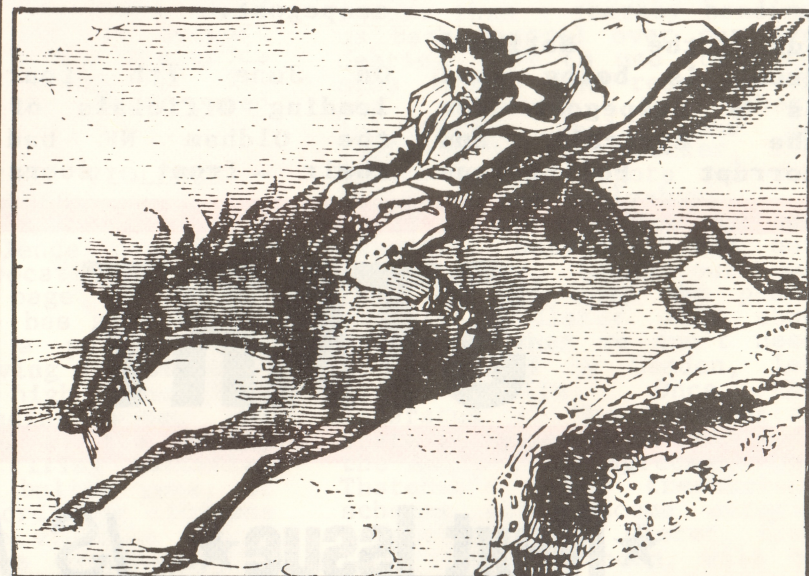

In Luton, where I live, I often see tramps picking through dustbins. I think, is that going to be the future of my country in 30 years? Will people be starving and homeless with no roots, left to tramp the streets?

So far the British people have been on the Phouka's madcap ride of Capitalism and Communism. We have waited a long time - but at last we have come to get off this ride to nowhere. The National Front is the only way to break the chains that have fallen upon us. We will rise like lions after slumber, in unbeatable numbers. Arise young Britons. Join up! Join in! Tomorrow belongs to you!

Alan Drury,

Luton

The Phouka, the Irish ghost which appears in the form of a horse and carries off the unwary on a madcap ride!

IN this new regular feature, National Front News looks at and reports on some of the Front - Line Action undertaken by the NF throughout the country. Hopefully, this will help to create and inspire Action. What's your unit up to? Let us know! Reports should be phoned to the Administration Office in Norwich or sent RECORDED DELIVERY to P O Box 41, Norwich, Norfolk, NR3 2AH

Oldham

ON Saturday July, 19th a march and rally was organised by the North West Region of the NF to show solidarity with our members in Oldham who are facing tyrannical oppression from the State.

Needless to say, any activity in Oldham was banned and the local NF committee were told that they would be arrested at once if any NF members appeared in the town on the day. So a rally was held in nearby Manchester City Centre. The rally passed off very successfully with members attending from all over Lancashire, and a few from further afield, even though none of the movement's supporters from Oldham managed to get there.

On their way to the rally the Oldham lads were jumped by several van loads of militant Asians armed with clubs, hammers and knives. Although our lads managed to beat off the attack and no serious injuries were sustained, the Oldham NF correctly decided that it was more important to protect their communities from marauding Asians than attend the rally a few miles away.

A successful day was enjoyed by everyone, especially by the Oldham NF. Once again, a mass mobilisation of Reds had been called for to "smash the NF off the streets". Once again it failed to materialise anywhere near the NF.

Newcastle

MEANWHILE the NF is taking Newcastle by storm. The local media are complaining that "the latest movement is better organised than before and a more sinister long term threat."

Newcastle Organiser Colin Todd now has his eyes on Middlesbrough and Darlington, whilst his capable officials keep them worried in Newcastle.

In fact the Reds are so worried that they produced no less than three different smear leaflets, by the thousands during the municipal elections in May this year.

Newcastle City Councillors seem to be even more worried. They have recently voted to allow the 'Anti-Fascist' Association's magazine Unity into school libraries.

But will they get there?

FRONT-LINE ACTION

West Suffolk

150 NF members, mainly from East Anglia, marched in the pouring rain through Bury St. Edmunds on July 5th, to celebrate British Independence Day, called for the day after the American Independence Day.

A large contingent of Reds that had been shipped in from North and East London to try to smash the movement's march against Yank troops and missiles in our country, failed to make any impression at all on the ranks of well disciplined marchers and stewards.

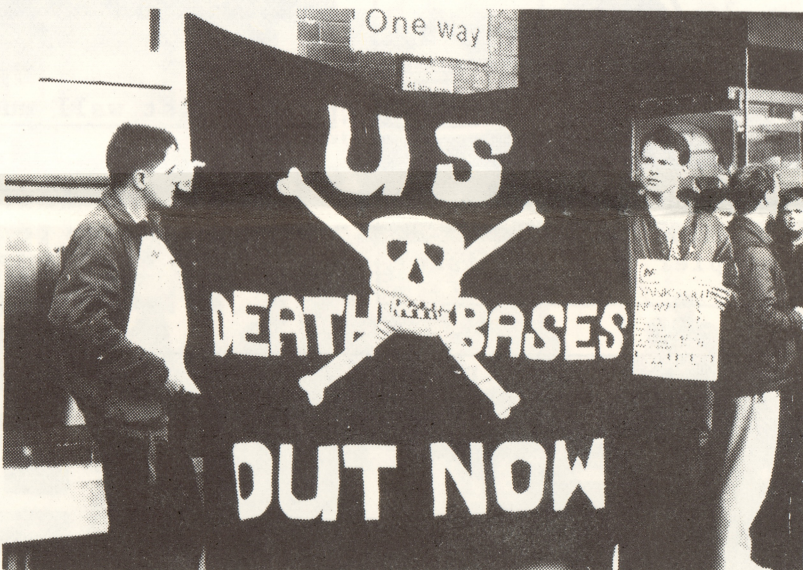

The only loss of the day came when two members carrying a banner broke ranks and charged into about 50 Reds. The Reds were a bit taken aback and although they gained an NF banner, they also gained a few bruises whilst the NF Cadres

remained unscathed.

After the march, a rally was held which attracted the eager attention of local people. The rally ended with the burning of a Stars and Stripes flag and continual chanting of "Superpowers Out Of Europe" and "Death To America".

A lot of interest was shown by local people before, during and after this activity, especially scores of local youngsters, who showed their physical support for us, when attacked by the Reds, who stayed behind in Bury that evening, hoping to pick off local NF members in the town. The Reds won't want to come back to Bury St Edmunds in a hurry.

Excellent media coverage lasting several weeks before and after the event was also gained.

Paper sale prior to British Independence Day March - Bury St. Edmunds July, 1986.

Croydon

MEANWHILE in Croydon, the local NF are campaigning for hanging to be restored for atrocities such as terrorist, sexual and premeditated murders, and also for the manufacture and widespread distribution of hard drugs.

In an area like Croydon, where violent crime is out of control, it's not surprising that the campaign is already receiving widespread support amongst the White communities.

Just before the May elections Croydon NF managed to ensure a massive reggae festival was banned. The annual, "Sunsplash", festival was always the scene of massive breakdowns of order, but not this year.

They have also recently obtained good local publicity concerning the realities of the present situation in Ulster. Have you written a similar letter to your local paper yet?

Ulster backing

EX-SOLDIER turned organiser for the National Front, Chris Marchant claims to have witnessed "disgusting" police violence against Loyalists in Ulster.

Back from a ten day trip to the trouble-torn province, Mr Marchant, described by the NF as a "long-serving member who has only just left the Army," was last week voted in as Croydon organiser/chairman.

A spokesman for Croydon NF said the branch had re-affirmed "it's commitment to stand by Ulster Loyalists in their struggle against a corrupt regime, for the purpose of establishing an independent state of Ulster led by the people of Ulster."

Croydon Advertiser 25/07/86

Torbay

THE NF and YNF in Teignbridge and Torbay have also been hitting the news in recent weeks. As well as working hard and gaining results and publicity in the schools, Torbay NF have also managed to get Torquay Reference Library to regularly stock National Front News.

One of the many newspaper reports stated

that "Under the banner 'Fight Back For Britain' the latest edition urges people to support the printworkers by picketing Wapping, the new home of the Sun and Times newspapers. In another story it was claimed that an English company was aiding the foreign military occupation of Britain."

Birmingham

BIRMINGHAM NF have been very busy lately. As well as duping the local council over meeting halls and meeting on council property, from which the NF is banned, they regularly attract over 50 members to their meetings. This is also reflected on National Activities, where Birmingham often bring a coach load of activists.

Just recently the Brummies determination and steadfast support for the Cause was shown when 15 members delivered thousands of leaflets in the pouring rain. Birmingham have already ordered 20,000 of the next leaflet to be published.

In between their regular activities in Birmingham, they are also organising new NF units in Dudley and Walsall.

At the end of June, Birmingham took a coachload of members up to Blackpool for a day out in the blistering sunshine. There was a midnight return, enabling everyone to go to the fair, enjoy the sun and have a drink. During this time they met up with members from Blackpool and held a joint leafleting and paperselling session, as well as having a good time.

A profit of £40 was made on the trip, which enabled Birmingham to

pay the balance that they owed for a printing press.

Birmingham suggest that other units ought to take advantage of, and arrange their own 'beans' to places like Southend, Margate, and Clacton, to combine a good day out with some constructive work in areas where there is a small or unorganised NF presence. If organised correctly, a nice profit can also be made for your unit, as Birmingham have shown.

As well as organising trips to the coast Birmingham also hold film shows. The latest one attracted over 30 people and raised a few pounds for the NF's special Ulster Fund.

Birmingham have also asked us to point out that they need £300 to help complete their building in South Birmingham. They would be very grateful for donations. When the work is completed and the building in full operation, it will be an immense boost for the NF in Birmingham and throughout the West Midlands.

All donations should be made payable to "Birmingham NF" and sent RECORDED DELIVERY to, "The Secretary", P O Box 114, Solihull, West Midlands.

Merseyside

LIVERPOOL AND SEFTON units are still getting themselves about. As well as recruiting Militant supporters and organising public meetings, the YNF has also been heavily recruiting in schools. Cells have been set up in four schools and one of them, the University Community Comprehensive, consists of 30 members. This school has been

taken over by immigrants and was the centre of a nationally reported race row earlier this year, when 10 White pupils were kept away from school by their parents because of attacks by immigrant pupils.

Now with the help of NF members in the area the Whites at the school are standing together and looking after themselves.

Section of militant crowd at Defend Free Speech Rally - Liverpool June, 1986.

In this special photo feature we take a look at the NF's involvement in Ulster and at the situation in general.

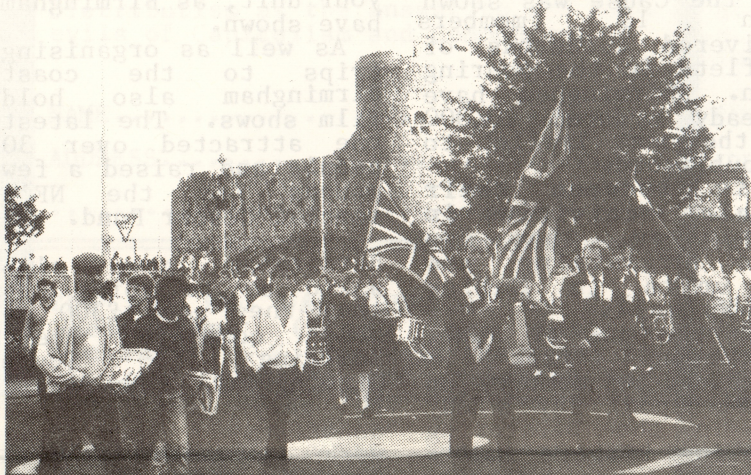

The R.U.C.'s "friendly" policing at Portadown resulted in this young girl's wrist being broken.

NWA NEWS

EARLIER this year Andy McLorie the treasurer of Belfast NF and a leading NF figure in Ulster was framed and incarcerated by the R.U.C. in an attempt to stem the NF's advance in Ulster.

Readers will have seen a powerful and inspiring letter from Andy on Page 2. The sacrifice that this brave man has made for our Cause demands that every NF member and supporter must make it their duty to write to Andy and help lift the burden of his imprisonment.

All letters should be sent to, 1246 Andy McLorie, C Wing, HMP Crumlin Road, Belfast, Ulster.

WE'RE NOT JUST BUGGED, BUT ANGRY

DOES NOBODY love the State? Does nobody write to them? Is this why our mail keeps going missing?

Considering the National Front is supposed to be a puerile, misguided political organisation it seems strange that the State feels it necessary to steal our mail, "bug" and listen in to our telephone conversations as well as consistently cutting off the more important calls.

It doesn't take a genius to work out the reason for these tactics. Everything points to fear. The State and the profit orientated powers that be are running scared. The potential for the NF leaves them panic stricken. Hence, constant State interference.

**KEEP UP THE PRESSURE!
KEEP THE STATE WORRIED!**

IMPORTANT NOTICE TO ALL VOTING MEMBERS OF THE NATIONAL FRONT.

Six places on the National Directorate of the National Front will fall vacant on the 4th October, 1986.

Nominations are therefore sought for these places from any qualifying voting members.

Nomination forms are available from the Administration Office by telephone or written request.

If writing please address your letter to "The Secretary", P O Box 41, Norwich, Norfolk, NR3 2AH, and don't forget to send it RECORDED DELIVERY

RACIAL REALITIES

ONE of the most serious threats to the survival and prosperity of the unique races and peoples of the world is multi-racialism. When a race has been destroyed by race-mixing, it has been destroyed forever. And with the destruction of a race comes the destruction of the cultures, heritage and traditions of that race.

Physical artifacts or a distant memory may survive historically, but they are meaningless to the mixed-race inhabitants that remain. The race-soul has been destroyed.

Multi-racialists and liberal thinkers correctly condemn negative racial hatred, based upon hatred of something different, but these race-mixers are guilty of a much more severe and lasting racial hatred.

Race-mixers preach racial genocide.

Racialism is the recognition of the unique peoples and races of the world, their unique cultures, traditions and heritage. It is a deeply held love for your own people and a sincerely held respect for others.

We recognise that each race has the distinct right and duty to self-determination and development in its own land and amongst its own people, free from outside interference and pressure.

Multi-racialism has never worked throughout history and it never will. This is because each race wishes to protect itself and its land, and wishes to survive and prosper.

When race-mixing begins the natural consequences and evils begin with it. The immigrants are alienated. Trapped, in a land and with a people they do not know or understand, they naturally close ranks and react to any real or imagined threat that they feel to their survival. They begin to fear and hate the indigenous population.

The indigenous race resent the immigrants coming, taking their jobs and houses, and competing with them. They resent the immigrants living on their

land, in their nation, on soil that is drenched in the blood, sweat, toil and pain of their ancestors. And above all they detest immigrants taking the women-folk of their race and threatening its survival and future prosperity.

Not surprisingly both communities naturally feel fear and mistrust towards each other, the consequences being hatred, abuse, violence and eventually race-war.

The only solution is a complete reversal of multi-racialism. The only answer is the Repatriation of all coloured immigrants and their descendants to their lands of ethnic origin.

Anything less will mean a horrific race-war.

BLAME THE BOSSES FOR THE BLACKS

IMMIGRATION was a very desirable innovation from the standpoint of the post-war Industrialists who had just enjoyed another bonanza, the like of which they hadn't seen since the Great War.

After 5 years of full production for the Government at 25% profit, they were faced with the "awful" prospect of peace, a rundown of orders and much smaller profits.

To combat this, the bosses of big business and industry realized that they were faced with two options with which to maintain their profits. They could either:

a) Re-tool with some of the profits to renew worn out and out dated machinery and improve productivity per capita, or
b) Keep their profits and make do with the old machinery, which would

need a pool of cheap labour who were not used to decent working conditions.

Being loathe to spend some of their profits on new machinery and take a cut in profits due to the wage bargaining power of the Unions, the Politicians' backers put pressure on the Government and Opposition to implement large scale coloured immigration in order to provide cheap slave labour and undermine the Unions bargaining and strike power.

Thus the process of coloured immigration began with the immigrants being promised a better life and standard of living. But when they arrived they soon found out that their material status hadn't improved at all.

British workers found themselves competing with immigrants for jobs, housing and

welfare, and the Unions became much weakened as immigrants were used as scabs to break strikes and they worked for much lower wages and under worse conditions.

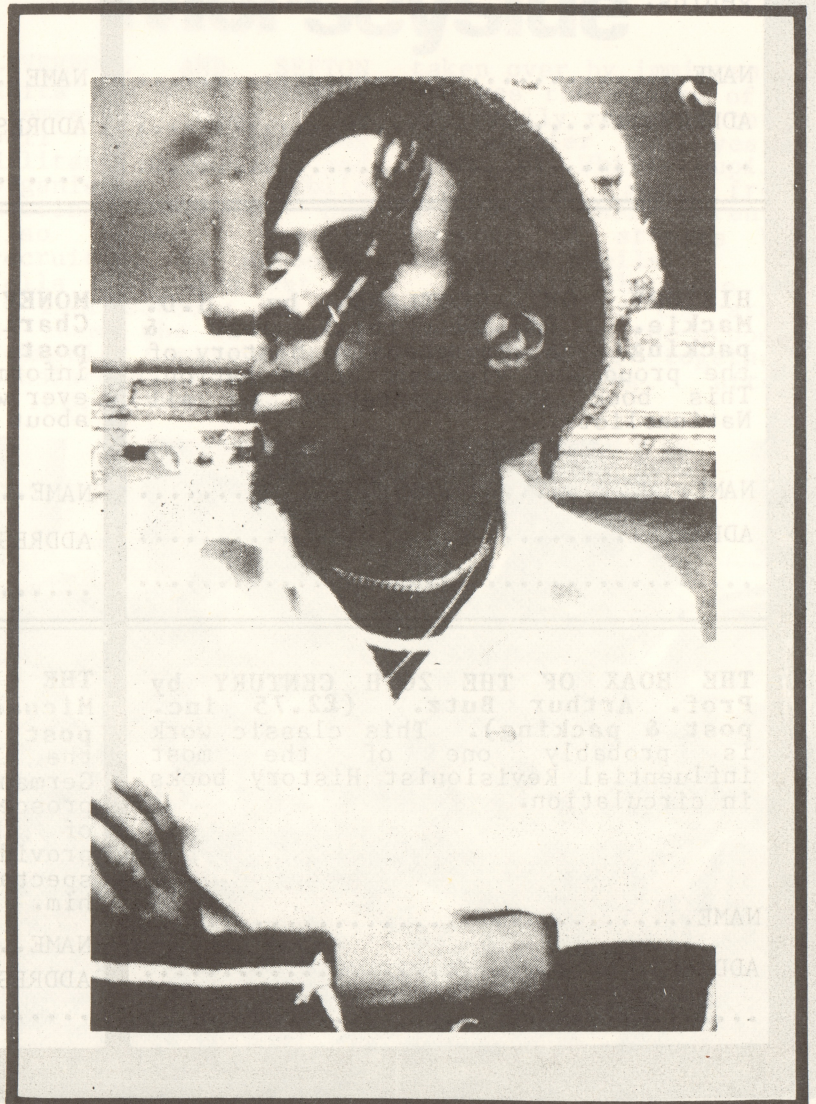

Both the immigrants and British workers were, and still are being exploited by the bosses of Big Business. It is the bosses and the Politicians who are to blame for the multi-racial experiment. It is the bosses, and the Politicians and their Capitalist system who must be fought tooth and nail and defeated, both for our sake and that of the immigrant communities presently visiting our land.

We are both victims of Capitalism. The system and the State which upholds it are the enemy.

What Young West Indians think of RACE MIXING

IN a recent detailed survey of 508 young West Indians, 81% of them born in Britain, Dr Ashton Gibson, Director of the Centre for Caribbean Studies and founder of the West Indian Homeward Bound Repatriation scheme found that:

- * 95% felt negative towards Whites
- * Only 2% expressed positive feelings towards Whites
- * 62% thought that they were not wanted here
- * 72% thought that they were regarded as second class citizens
- * Less than 1% felt that British society saw them in a good light
- * 65% of them thought that their parents did not like it in Britain
- * 62% thought that their parents would be better off in the Caribbean
- * 85% of those born in the Caribbean would like to return there
- * 15 % of those born in Britain would like to live in the Caribbean
- * None admitted learning anything about themselves or their homeland at school
- * 90% thought that they would experience problems in the future because of their race.
- * 15% thought that Whites had the same problems
- * 90% did not see their problems being overcome
- * 41% had White friends at school, but less than 2% continued friendships with Whites after school.
- * 70% had problems hearing and understanding their teachers
- * 62% felt that teachers were prejudiced against them
- * 35% felt that their work was marked down

COMMUNITY ACTION

COMMUNITY ACTION seeks to help the National Front sink local roots. Indeed, we see this as a very small step along the road to establishing a whole series of NF Advice Centres throughout the British Isles.

ACT NOW FOR INFO

NOW for the first time, thanks to the local Government (Access to Information) Act, that the Tories were forced to accept during April this year, you have the right to attend not just the meetings of the council or its committees, but the sub-committee meetings where most of the key business is done.

You have the right to obtain in advance of those meetings, the agendas, and the reports and background papers likely to be discussed.

Furthermore, your council will not be able to slip into secret session to discuss matters, except for a few specially exempted areas.

In the past many councils would suddenly exclude the public for the most frivolous reasons.

You now have the right to call at the town hall and ask to see agendas, reports, minutes and summaries, and background papers for the past six years. This means that if a decision has been taken that affects you, or your street, or your local community, you can now find out exactly what and why.

You also have the right to a register of the names and addresses of councillors and details of their committee responsibilities; also the powers that have been given to council officers.

This means that you can hold individuals to account - the 'anonymous bureaucrat' is no more. This represents a major step towards freedom of information at a local level, but it will only work if you enforce it.

This is not a law that we can expect local councils to implement with enthusiasm, because information is power and however small the power, those who hold it are reluctant to share it.

So if the law is to be effective, you have to implement it by using it - by asking for the information, by attending meetings and by insisting that your local authority properly implement all the contents of the new Act.

It should benefit you in two ways:

Firstly, should you already be involved in local community organisations of one sort or another you will

now be able to become more effective in your campaigning as you can now challenge reports if they are biased or inaccurate.

Secondly, if you are likely to be affected by a planning decision, or the policy of a housing committee, you will now be able to attend the sub-committee meeting, hear what has happened, and if you don't like it, try to influence your local councillor before the main committee or council meetings.

But because it's up to you to enforce this legislation, your responsibility extends beyond that. Some local authorities will try to bend the rules.

For instance, they might try to call some of their sub-committees 'advisory panels' and try to continue the practice of secret meetings. If you hear of this, complain, instruct your local councillors to take the matter up, draw it to the attention of your local papers, or even to **Community Action**.

It is extraordinary how some officials take a pride in their skill in evading their responsibilities for public accountability.

There are still important areas where new legislation is less than adequate. For instance, it does not create the right of older pupils and parents to see school files on themselves, or for housing tenants to see their files, or for clients of the social services to see theirs.

Some local authorities have decided voluntarily to make these files available. Insist your council does as well.

Nowadays when the authorities have so much influence over so many aspects of our lives, one source of protection for the individual is the opportunity to inspect his or her files to ensure that they are accurate and fair. Make sure that you take this opportunity.

COMMUNITY POWER IN ELM PARK

ELM PARK members of Havering National Front in East London are gaining excellent results from the dedication and hard work that they have put into their **Community Action**.

We want to expose local council corruption and incompetence, fight closures of schools, factories and hospitals, and campaign for decent housing and social services for our people. We also carry lots of advice on what you are entitled to in the way of benefits and consumer rights etc., as the powers that be usually try to suppress such information.

We also wish to generate a climate of self-help and community pride and care which is sadly being attacked and destroyed.

If any NF News readers think that **Community Action** should focus on problems or initiatives in their area, or promote, give advice on, or help their campaigns, please contact us, and send us your community news and any press cuttings.

Their work basically revolves around the local Civics Conference - a regularly held meeting which enables various organisations in Havering to submit local questions to the council - to bring a local issue into the limelight.

When a question has been raised and an unsatisfactory answer has been obtained from the council, the local NF really start to get down to business, by swamping the area with simple but effective, cheaply produced leaflets aimed at whipping up support on a particular subject.

The leaflets are structured in such a way as to encourage people in taking action themselves, usually by writing to the council and adding weight to the NF's demands.

The local NF have also organised and conducted petitions and joined forces with other organisations that are campaigning on issues with which they agree.

The Elm Park members listen to peoples complaints and gauge support for issues whilst carrying out their large door to door paperselling round. These issues are then raised at the Civics Conference, and leaflets put out to mobilise support and action for the issue.

So far they have campaigned on behalf of the local shopkeepers and shoppers and for lighting in a local park where muggings and burglaries of nearby houses are an increasing problem. They have also campaigned for a zebra crossing on a busy and dangerous main road, which is a strong local issue.

In the May municipal council elections, Havering's Elm Park candidate received a vote of 6.7% and beat the local Residents Association and Green Party candidates.

This success can undoubtedly be put down to Havering's effective Community Action politics and their deeply held belief that Community Action is the way forward.

STOP PRESS: We have just heard that the people of Havering have at long last been successful in their fight for a new zebra crossing. After months of the council not wanting to know, the immense pressure applied to them by Havering NF has finally forced them to submit to the demands of the people.

Well done Havering.

Local Contact List

THE National Front has organised and active units in most areas of the British Isles. As part of our fight back against State Repression we are encouraging local units to deal with enquiries about the NF at a local level. The following is a list of units which have so far established P O Boxes or local contact addresses.

As more and more NF units open Post Office Boxes and contact addresses they will be added to the NF Contact List. This will enable a considerable number of enquiries to go directly to the units, thereby avoiding unnecessary delay in those enquiries being dealt with.

If a unit isn't listed for your area yet, you may write to them via 50 Pawns Road, Croydon, Surrey, CR0 2QF.

BEDFORDSHIRE NF
77 Brunel Rd, Lewsey Farm Estate, Luton, Beds

BELFAST NF
P O Box 40, Belfast, BT7 1LY

BIRMINGHAM NF
P O Box 114, Solihull, West Midlands.

BLACKPOOL NF
P O Box 12, Lytham St. Annes, Lancs, FY8 5QR

BURNLEY NF
P O Box 2, Burnley, Lancs.

PREPARING FOR POWER IN

ULSTER

In this special feature article a guest writer from the N.F.'s Central Ulster Committee explains the movement's proposals for a truly effective fight against the treasonable Anglo-Irish Agreement. This is how it can be done.

THE PEACEFUL one hour token seizure of the village of Hillsborough by 4,000 well-disciplined men showed that Ulster loyalists have the organisation needed to outwit Maggie Thatcher's security forces. But it did nothing to destroy the Anglo-Irish Agreement.

The demonstration by over 200,000 people in Belfast last November showed that Ulster loyalists have the weight of numbers needed to defy the attempt to force them to accept Dublin rule. But it did nothing to destroy the Anglo-Irish Agreement.

The Ulster Says No vote by 71% of the Ulster electorate showed that Ulster loyalists have the basic political unity needed to decide their own future. But it did nothing to destroy the Anglo-Irish Agreement.

Every one of the actions organised by our established political leadership has been effective in gaining publicity and in showing to the world what the people of Ulster think about the latest Tory attempt to sell us out. But not one of them has actually done anything more than that. For all the bold talk about "making Ulster ungovernable" and "enforcing the will of the majority", the treasonable Agreement still stands.

Why? Because this undemocratic fraud can only be exposed and destroyed by **direct and sustained confrontation** with the Thatcher State. It is not enough to say "No"; we have to back up our position with **ACTION**. We have to show we mean it.

UNDEMOCRATIC

Yet taking over a village for an hour doesn't produce a decisive confrontation with our undemocratic rulers - they simply order their police bully boys to stay out of the way until the demonstration is over. The same is also true of temporary loyalist occupations of IRA bolt-holes across the border. Similarly, Ulster election results and mass meetings outside Belfast City Hall don't threaten Thatcher's dictatorship as she simply ignores them.

So since Thatcher has brushed aside our reasonable and constitutional protests, the time has come for the loyalist majority to take a step further - not towards violence, but to a confrontation which the State cannot ignore and which we cannot lose.

TAKE POWER

The proposals for this which follow have been carefully worked out to be practical and to start to take power from the Westminster traitors and to give it back to the people of Ulster. If Thatcher ignores them, we win. And if she uses violence to stop them, her rule will be exposed as the vicious dictatorship it really is.

This **Six Point Action Plan** can work. The only question is whether our established politicians have the guts to organise it. If they do not, we must get on with the job ourselves.

1) V.A.T. STRIKE

V.A.T. is an unjust tax which falls most heavily on the poorer sections of the population most unable to pay it. And to add insult to injury, our own shopkeepers and tradesmen have to do the work of collecting it themselves. But why should we pay taxes to a government which does not even recognise us as full British citizens and which denies us fundamental democratic rights? Because the collection of V.A.T. is such a complicated business it would take only a few businesses to refuse to collect it to throw the whole system into turmoil. And a widespread strike would cost the government millions of pounds every week.

HOW WOULD IT WORK?

Customers would still pay V.A.T., but every penny of it would be paid into specially opened bank accounts. It would then be saved until the government backs down and restores our democratic rights.

2) T.V. LICENCE STRIKE.

Ulster's T.V. licence money helps pay for the B.B.C. even though it is full of viciously biased reports about events in Ulster and even though loyalists are never allowed to use the T.V. to put over our case.

Faced with a similar problem, thousands of Welsh speakers campaigning for a Welsh T.V. channel refused to pay their licence fees. Some were jailed and several of their leaders went on a hunger strike. The government rapidly set up a Welsh T.V. channel.

HOW WOULD IT WORK?

Ulster loyalists would refuse to pay licence fees until the B.B.C. produced acceptable safeguards against biased reporting and agreed to give loyalist spokesmen a one

hour ^{community} programme to put over our case.

3) STRIKE A LOYALIST RATE. CALL A RENT STRIKE

Since Thatcher's policies completed the destruction of local government in Ulster, we have had no say in how our rent and rates payments are spent. Nor do we have any control over our own amenities and communities. It is time to use our money to pay for facilities controlled by local people.

HOW WOULD IT WORK?

A small number of test areas would be chosen by local loyalist community leaders. Everyone in these areas would be asked to pay a proportion of their rent/rates to a local **Ulster Community Fund**. This would then be used to pay for some badly needed local amenity such as a pensioners' club or youth training centre. What would Thatcher's State look like if it used force and prison sentences to stop such a constructive initiative?

4) SET UP AN ULSTER CO-OP.

Many factories and businesses in Ulster are owned or controlled by multi-national companies, the Thatcher State or by company bosses too greedy to sever trading links with the Free State. Such concerns are the enemies of Ulster and need to be taught a lesson. The take over of just one, and its conversion into an Ulster co-op by its workforce, would provide that lesson and give loyalists valuable experience for the future.

HOW WOULD IT WORK?

Local loyalist leaders, including trades unionists, would choose a suitable target. This would need to be making low cost consumer goods from easily obtainable materials. It would be occupied and the workforce would begin a permanent "work-in" on the co-operative principles now working so well in thousands of companies in Britain and Europe. All loyalists would then have a duty to support the co-op by buying its goods instead of those of its capitalist or State-owned competitors.

5) STOP R.U.C. VIOLENCE - POLICE OURSELVES.

The violence caused by intense provocation by the R.U.C. (see page 4 for our shock report) has gone on too long. When a police force takes to driving its armoured vehicles at high speed into crowds including women and children, and to the deadly practice of firing batteries from plastic bullet guns, it is time for ordinary citizens to reject the violence caused by the police presence. We must learn to protect and to

police our own communities. Naturally, the confidence needed to do this will only come from experience, so a small-scale trial run is needed.

HOW WOULD IT WORK?

One carefully picked local estate would become the responsibility of a well-disciplined team, which would work with the residents to uphold peace and good order and to prevent provocative R.U.C. policing. The Ulster Defence Regiment would be welcome to inspect the area. Anyone attempting to stir up sectarian violence or to commit any other crime would be handed over to them at once.

6) REBUILD OUR COMMUNITIES.

Part of the reason for our failure to destroy the Agreement so far is that high unemployment and reliance on government hand-outs has undermined our confidence in our own ability to get things done for ourselves. One example alone proves this: Ulster is full of derelict houses, unemployed building workers and homeless families. If we could just start to renovate our own housing stock, we would improve this scandalous situation and also take a major step towards breaking the Westminster tyranny.

HOW WOULD IT WORK?

Every loyalist community would set up a Housing Action Committee to choose and take over one empty house. This would be renovated by volunteer labour and then let by the committee to a local homeless family. Normal rent would be paid and would help pay to renovate further properties left empty by the Housing Executive or big private landlords.

TRULY CONSTRUCTIVE.

Every one of these Six Points is easy to put into practice and all of them are truly constructive. They would show Ulstermen and women to be responsible and decent people. Thatcher and Co. would either have to ignore them - thereby handing us back control over our own destiny - or to use force to stop them. The reaction of our enemies to these initiatives would show up Thatcher as the wrecker, the B.B.C. as the bigots and the R.U.C. as the bully-boys.

If we can organise our own essential services, run our own economy, house our own families and keep the peace ourselves, Ulster will show the world that we don't need to be ruled by London, let alone Dublin. Once the apparatus of the Westminster State is bypassed in this way, the Anglo-Irish Agreement and Thatcher's other treacherous schemes will become utterly irrelevant. And Ulster, free from rule by London, will be British forever.
